Our new \$6-million research facility in Richmond is considered the best in the industry. Our \$80 million factory under construction there will be the largest in the world.

But, both of these would be just concrete and steel without Philip Morris People. They wouldn't even be there without the day-to-day dedication, skill, and proficiency of people like you.

No wonder Philip Morris leads the industry in sales increase. Factories make cigarettes—people make Philip Morris.

THANKS! We're proud to have people like you.
